

Dear Sirs:

I strongly OPPOSE docket RM-10354, wherein Mr. John Rippey requests expanded privileges, including substantial HF phone privileges, for Novice and Technician Plus licensees.

The FCC already provides a method for licensees to obtain expanded privilege: By applying themselves and learning as little as the 75% of the required examination material.

Under current FCC rules, the question pools and exact answers and detractors are public information, and at test sessions candidates who fail can get "do-overs" with different versions of a test by simply paying another test fee. It could hardly be much easier.

Please REJECT RM-10354.

Thank you for your consideration in this matter.

Alan J. Wormser, N5LF
